

# Flow Chart of "Total Process" service

## Example of Metalization Process

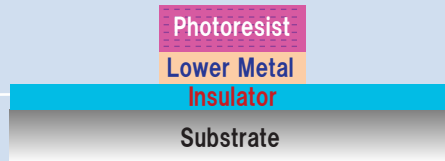

### 1. Lower metal deposition

- Insulator deposition
- Metal deposition

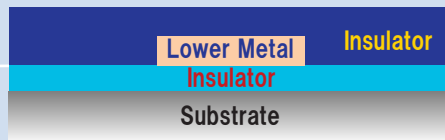

### 2. Lower metal patterning

- Photolithography
- Metal etching
- Resist removal

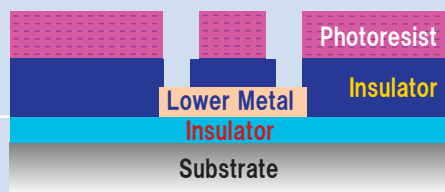

### 3. Interlayer insulator deposition

- Insulator deposition

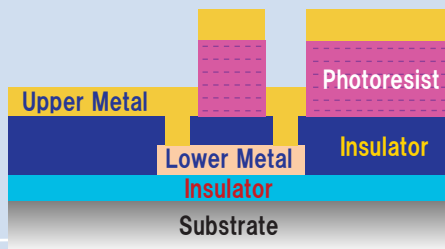

### 4. Through hole fabrication

- Photolithography
- Insulator etching
- Resist removal

### 5. Upper metal fabrication

- Photolithography
- Metal deposition
- Lift off

## 6. Completed
